

TREAT YOURSELF TO LOWER VETERINARY PRICES

FRONTLINE SPOT ON
FROM
£8.92
(Cat spot on 3 months)

Medication Range

Because pharmacists are recognised as medicine specialists, you will find medicines that are much more potent than those in supermarkets and pet shops. In fact, many of the medicines that we sell, are the same as you buy from your veterinary surgery.

Popular products such as, Frontline Spot On, Drontal & Panacur wormers can all be purchased from us, without a prescription.

Prescription Medicines

Of course some medicines need the intervention of a veterinary surgeon. But, you can also obtain these medicines from Cox & Robinson, by exercising your right to ask your vet for your FREE prescription.

Price

Our prices are always competitive. We are focused on providing effective medication at affordable prices.

We believe that customers should always be free to choose where they obtain their pet medicines.

Convenience

Cox & Robinson provides convenient, accessible services for healthcare needs throughout Milton Keynes and the surrounding area
